based on diaries and email correspondence that she kept from 1981-2004 here suad amiry evokes daily life in the west bank town of ramallah a literary protest done with great wit skill and passion not only is it really funny but it shows the kind of courage vision and humanity needed to bring peace to the middle east eve ensler author of the vagina monologues capturing the frustrations cabin fever and downright misery of her experiences amiry writes with elegance and humor about the enormous difficulty of moving from one place to another the torture of falling in love with someone from another town the absurdity of her dog receiving a jerusalem identity card when thousands of palestinians could not and the trials of having her ninety two year old mother in law living in her house during a forty two day curfew with a wickedly

sharp ear for dialogue and a keen eye for detail amiry gives us an original ironic and firsthand glimpse into the absurdity and agony of life in the occupied territories

this edited collection brings together discussions of literary works from israel the occupied palestinian territories the palestinian and jewish diasporas as well as from authors and creators not directly involved with the conflict who are seeking to unpack its complexities for a wider audience it offers new perspectives into how the palestine israel conflict is and can be represented after the second palestinian intifada an epochal event for both israelis and palestinians this collection foregrounds the thematic concerns that link literary engagements with palestine israel across the globe but also examines the role that aesthetic representation plays in framing the conflict and its power dynamics it addresses how emergent forms of writing and representation illuminate but also redescribe conflict in the context of israel and palestine and how as in the case of the investigative graphic novel for example depicting this conflict has had reverberations for representing conflict and conflict zones more widely

recent radical changes have altered the form and functions of the diary from the confession diaries of reality television how to diaries and graphic diaries to the published diaries of war correspondents the urgent personal writing of arab women under conflict and the daily online postings of sex bloggers

isabelle hesse identifies an important relational turn in british and german literature tv drama and film published and produced since the first palestinian intifada 1987 1993 this turn manifests itself on two levels one in representing israeli and palestinian histories and narratives as connected rather than separate and two by emphasising the links between the current situation in israel and the occupied palestinian territories and the roles that the united kingdom and germany have played historically and continue to play in the region this relational turn constitutes a significant shift in representations of israel and palestine in british and german culture as these depictions move beyond an engagement with the holocaust and jewish suffering at the expense of palestinian suffering and indicate a willingness to represent and acknowledge british and german involvement in israeli and palestinian politics this book offers new ways of thinking about how israel and palestine are imagined and reimagined as topics of cultural and political interest in two countries that have had complicated histories with both israel and palestine histories which are marked by each country s memories of the holocaust and colonialism

the middle east in the world offers students a fresh comprehensive multidisciplinary entry point to the broader middle

east after a brief introduction to the study of the region the early chapters of the book survey the essentials of middle eastern history important historical narratives and the region s languages religions and global connections students are guided through the material with relevant maps resource boxes and text boxes that support and guide further independent exploration of the topics at hand the second half of the book presents interdisciplinary case studies each of which focuses on a specific country or sub region and a salient issue offering a taste of the cultural distinctiveness of the particular country while also drawing attention to global linkages readers will come away from this book with an understanding of the larger historical political and cultural frameworks that shaped the middle east as we know it today and of current issues that have relevance in the middle east and beyond
